

Medicinal Research Reviews

Author Index to Vol. 14 (1994)

Al-Saleh, Iman A. S.: The Biochemical and Clinical Consequences of Lead Poisoning, 415

Aoki, Toshiaki: See Cox, Dermot, 195

Azuma, Ichiro: Potentiation of Host Defense Mechanism Against Infection by a Cytokine Inducer, an acyl-MDP Derivative, MDP-Lys(L18) (Romurtide) in Mice and Humans, 401

Baindur, Nandkishore: Concepts and Progress in the Development and Utilization of Receptor-Specific Fluorescent Ligands, 591

Bajza, István: See Lipták, András, 307

Bernstein, Peter R.: See Edwards, Philip D., 127

Borbás, Aniko: See Lipták, András, 307

Brossi, Arnold: Chiral Drugs: Synopsis, 665

Cannon, Joseph G.: Structure-Activity Aspects of Hemicholinium-3 (HC-3) and Its Analogs and Congeners, 505

Cox, Dermot: The Pharmacology of the Integrins, 195

deStevens, George: Letter from the Editor, 589

Edwards, Philip D.: Synthetic Inhibitors of Elastase, 127

Fong, Tung M.: Functional Mapping of the Ligand Binding Sites of G-Protein Coupled Receptors, 387

Heller, Michael: See Kerwin, James F., Jr., 23

Hieble, J. Paul: See Ruffolo, Robert R., Jr., 229

Kerwin, James F., Jr.: The Arginine-Nitric Oxide Pathway: A Target for New Drugs, 23

Lipták, András: Synthesis of Carbohydrate-Containing Surface Antigens of Mycobacteria, 307

Mager, Peter P.: Interactive Multivariate Modeling of ArgGlyAsp (RGD) Derivatives, 75

———: Non-Least Squares Regression Analysis Applied to Organic and Medicinal Chemistry, 533

Matsuda, Koyo: ACAT Inhibitors as Antiatherosclerotic Agents: Compounds and Mechanisms, 271

Molnar-Kimber, K.: See Sehgal, S. N., 1

Motoyama, Yukio: See Cox, Dermot, 195

Ocain, T. D.: See Sehgal, S. N., 1

Otani, Tsuyoshi: See Azuma, Ichiro, 401

Ruffolo, Robert R., Jr.: α -Adrenoceptors: Recent Developments, 229

Scheur, Paul J.: From the Rainforest to the Reef: Searching for Bioactive Natural Products in the Mid-Pacific, 487

Sehgal, S. N.: Rapamycin: A Novel Immunosuppressive Macrolide, 1

Seki, Jiro: See Cox, Dermot, 195

Stadel, Jeffrey M.: See Ruffolo, Robert R., Jr., 229

Strader, Catherine D.: See Fong, Tung M., 387

Szejtli, J.: Medicinal Applications of Cyclodextrins, 353

Triggle, David J.: See Baindur, Nandkishore, 591

Weichman, B. M.: See Sehgal, S. N., 1

Yoshida, Keizo: See Cox, Dermot, 195

Medicinal Research Reviews

Title Index to Vol. 14 (1994)

α-Adrenoceptors: Recent Developments	
<i>Robert R. Ruffolo, Jr., Jeffrey M. Stadel, and J. Paul Hieble</i>	229
ACAT Inhibitors as Antiatherosclerotic Agents: Compounds and Mechanisms	
<i>Koyo Matsuda</i>	271
Chiral Drugs: Synopsis	
<i>Arnold Brossi</i>	665
Concepts and Progress in the Development and Utilization of Receptor-Specific Fluorescent Ligands	
<i>Nandkishore Baindur and David J. Triggle</i>	591
From the Rainforest to the Reef: Searching for Bioactive Natural Products in the Mid-Pacific	
<i>Paul J. Scheuer</i>	487
Functional Mapping of the Ligand Binding Sites of G-Protein Coupled Receptors	
<i>Tung M. Fong and Catherine D. Strader</i>	387
Interactive Multivariate Modeling of ArgGlyAsp (RGD) Derivatives	
<i>Peter P. Mager</i>	75
Letter From the Editor	
<i>George deStevens</i>	589
Medicinal Applications of Cyclodextrins	
<i>J. Szejtli</i>	353
Non-Least Squares Regression Analysis Applied to Organic and Medicinal Chemistry	
<i>Peter P. Mager</i>	533
Potentiation of Host Defense Mechanism Against Infection by a Cytokine Inducer, an acyl-MDP Derivative, MDP-Lys(L18) (Romurtide) in Mice and Humans	
<i>Ichiro Azuma and Tsuyoshi Otani</i>	401
Rapamycin: A Novel Immunosuppressive Macrolide	
<i>S. N. Sehgal, K. Molnar-Kimber, T. D. Ocain, and B. M. Weichman</i>	1
Structure-Activity Aspects of Hemicholinium-3 (HC-3) and Its Analogs and Congeners	
<i>Joseph G. Cannon</i>	505
Synthesis of Carbohydrate-Containing Surface Antigens of Mycobacteria	
<i>András Lipták, Anikó Borbás, and István Bajza</i>	307

Synthetic Inhibitors of Elastase <i>Philip D. Edwards, and Peter R. Bernstein</i>	127
The Arginine-Nitric Oxide Pathway: A Target for New Drugs <i>James F. Kerwin, Jr. and Michael Heller</i>	23
The Pharmacology of the Integrins <i>Dermot Cox, Toshiaki Aoki, Jiro Seki, Yukio Motoyama, and Keizo Yoshida</i>	195
The Biochemical and Clinical Consequences of Lead Poisoning <i>Iman A. S. Al-Saleh</i>	415
